What?

You want to know why democracy is so important?

You are interested in what happens in your environment?

You want to have a voice in it?

... then join us in December at the participation workshop "EMPOWER YOURSELF" for young people from the age of 14 years.

Your wishes, ideas and claims are the focus here. It is important to you to learn more about your training opportunities? What your future can look like? What comes with the age of majority? And how was that again with the volunteering?

We want to discuss all these topics with you. We invite you to discuss, to meet new young people and to talk to politicians. Because we want **you to be heard** and **taken seriously!**

It's about you and your concerns! Everyone between 14 and 25 years old is able to participate in "EMPOWER YOURSELF". Also nice: The attendance in the participation workshop is free of charge and also the travel expenses will be refunded.

How?

What does a participation workshop look like?

In "EMPOWER YOURSELF" you get the opportunities to speak in workshops about topics that move you. You can educate yourself about the topics of education (school, study and Co.), political possibilities of participation, leisure activities, voluntary work, law of youth protection, right to abode and possible perspectives in Germany. In the second part **you are asked**. You are involved into an open-space-discussion and the other participants deepen your questions and wishes.

#EMPOWERYOURSELF

Saturday, 02. December 2017
